WM. ROBINSON AUTO VICTIM

William Robinson of this city was run over near Beresford last Saturday afternoon by an automobile driven by Theodore Dobel, San Francisco, and killed. He resided at 216 Grant avenue and was a watchman for the State Highway Commission.

Robinson is survived by a wife and three children. He was a new comer to this locality but was highly spoken of by all his neighbors.

Robinson was stationed just this side of the Beresford crossing on the highway, where a sink in the pavement necessitated an excavation last week ,the spot being fenced off and the new concrete being covered with dirt. Robinson was engaged in smoothing off the dirt, when a red colored automobile approached from the north. It slowed down on nearing Robinson, who did not move from his position. Dobel who was coming at a rapid rate of speed to avoid a collision turned to the right and in doing so struck Robinson square on the back. Dobel had not put on his brakes and so passed the excavation several yards before coming to a stop. The owner of the red machine has not been ascertained. He was struck by the fender and the wheel of the car ran over his body. He was rushed to the Red Cross hospital in San Mateo but died before reaching there.

It is more than probable that the family of the deceased will bring criminal proceedings against Dobel.

REDWOOD CITY WOMAN CHARGES CRUELTY

A suit for divorce was filed in thes uperior court at Redwood City Monday by Grace Nichols of Redwood City vs. Harold V. Nichols, through Attorney J. J. Bullock.

Mrs. Nichols alleges that Nichols has treated her and their children with extreme cruelty, has refused to work and properly support them, and that she has been compelled to leave her children and seek work in order that they may have the necessities of life. The couple were married at Redwood City on August 5, 1905, and separated on May 1, 1921. They have four children, the eldest 13 years and thethe youngest two years. She asks a divorce, custody of the children, and such alimony as the court may see fit to award, together with attorney's fees and costs of suit.

BONDING THE HIGH SCHOOL DISTRICT CONSIDERED BY THE TRUSTEES

The board of trustees of the Sequoia Union High school held an important meeting in the grammar school building last Saturday. Those present were Chairman of the board L. P. Behrens, the clerk, D. E. O'Keefe, and Trustees W. A. Emmett, Belmont; Edward Greeley, Woodside; and T. O. Heydenfeldt, Redwood City.

The matter of bonding the district was taken up and discussed at length with the grammar school trustees. The latter have partly agreed to buy the high school building as the present grammar school structure is inadequate to house the children at present so that larger quarters will have to be secured. To do this the district will have to be bonded. It is proposed to have the both bond elections at the same time in order to cut expenses. Further discussion on this important question will take place later when some definite plan will be decide dupon.

The high school trustees contemplate erecting a fine modern school building, the very last word in high school structures. Before anything definite is done all taxpayers and others will have an oportunity to be heard. It is the purpose of the high school trustees to give the people a modern structure, an up-to-date school and a corps of teachers that they may be proud of.

Several of the teachers were employed for the next term. The principal S. P. McCrea, who has acted as such for the past sixteen years, will retire at the end of the term. He has been a loyal and a faithful teacher. His heart was in his work and through his efforts the school has been recognized as one of the best in the state. Mr. McCrea is popular with the alumni, the teachers and pupils. Many of his graduates are holding positions of prominence throughout the state. To his retirement he carries with him the best wishes of his pupils, teachers and the trustees.

As an evidence of the popularity of the peninsula and particularly Redwood City it may be stated that the trustees have a stack of applications for the principalship a foot thick. Applicants are from all parts of the state. The trustees will make a thorough investigation of every applicant before making a selection. Their credentials will be gone over by a committee of the board.

PAVING WAY TO PURCHASE THE SEQUOIA HIGH SCHOOL

The citizens of Redwood City met in the office of the grammar school building on Thursday evening to consider the proposition of bonding the district for funds with which to purchase the high school property adjoining the grammar school holdings for grammar school purposes. The latter institution is crowded and is badly in need of room and must have larger quarters for the increasing attendance of pupils. The high school will soon erect a large structure on the new site purchased in Redwood Highlands at a cost of $80,000 last year.

The following committee was appointed to secure the concensus of opinion of the taxpayers and the people generally as to the advisability of the contemplated purchase and report their findings at a meeting to be held next Thursday evening at the grammar school building:

A. D. Walsh, T. C. Rice, Z. T. Thorning, Floyd Baird, L. A. Heiner, D. W. Williams, J. D. Hedge, W. S. Baker, M. A. Harris, D. R. Stafford, Albert Mansfield and Kenneth Murray.

D. W. Williams was selected chairman of the committee and J. D Hedge secretary.

Very little opposition has developed to the proposed plan and it is no doubt the proposition will meet with favor by all who believe in good school buildings and adequate equipment for training the youth of this district.

The divorce case of Nellie M. Sturtevant against her husband, Rodney I. Sturtevant, commenced in San Francisco on April 26, has been transferred to the superior court of this county for trial. The Sturtevants were married in San Francisco on November 11, 1915, and separated on April 23, 1921. Plaintiff asks for the custody of the minor child, costs of suit, reasonable alimony and attorney fees. Failure to provide is the ground for the action.

SANTA CLARA COUNTY TO ERECT A NEW COUNTY JAIL

The Santa Clara County Board of Supervisors contemplate erecting a modern county jail similar to the one in Redwood City which is considered the finest in the state. The Santa Clara board visited the jail here on Monday and were shown through the building by Deputy James Coleman. They were all delighted with the building and hope to duplicate it at San Jose.

C. P. Cooley, a member of the board from Palo Alto, declared the San Mateo county jail building is a credit to any county and a monument to the progress and liberality of the taxpayers.

The Santa Clara county jail, which has stood for nearly fifty-two years has been the subject of grand jury condemnations years after years. It was thoroughly remodeled, as far as possible, and whitewashed upon the advent of Sheriff Lyle into office, but is still held undesirable. Prisoners would rather serve a year in San Quentin than six months in the Santa Clara county jail, many of them declared.

They are the finest selection of orchids ever seen in the country It is a rare sight to see them. No lover of flowers should miss this opportunity of visiting Peterson and Hayward's nursery. Mr. Brown, the superintendent, will be pleased to show all visitors this wonderful collection of orchids which have no equal in this country.

The board of supervisors met in regular session Monday, May 16, 1921, at 10 a. m.

District Attorney Swart presented the proceedings relative to the election held in the Burlingame school district on May 2, 1921, to vote on the proposition of bonding the district in the sum of $70,000 for needed school improvements. The returns showed that the election carried by 254 in favor of the proposition to 54 against.

The committee appointed some time ago by the chairman of the board and consisting of Supervisors Hickey and Brown and County Surveyor George A. Kneese, to investigate the possibility of locating a road along the easterly side of the Southern Pacific railroad from San Bruno to Beresford, for the purpose of relieving the traffic on the present highway, submitted its report, showing that the distance between the two points is 9.78 miles, of which 4.82 miles are outside of municipalities, and giving the total distance in the different townships and municipalities. In the report the committee recommended that the county surveyor be instructed to proceed immediately to lay out this new road in so far as the county is concerned, utilizing streets where practical and taking into consideration the possibilities of subdivisions in order to accommodate further development of property along ths route, and further recommending that upon the approval of the location that the municipalities of Daly City, San Bruno, Burlingame, San Mateo and Redwood City be invited to meet with the supervisors to confer in the project.

The report was accepted and the county engineer was instructed to make a survey of the proposed right-of-way.

Attorney James T. O'Keefe, in behalf of himself and his brother, D. E. O'Keefe, presented a map of Menlo Park Acres," a tract of land owned by them and consisting of 101 acres, located in the Third township. The map was accepted and approved, on motion of MacBain, seconded by Hickey.

Chairman Thompson addressed the board relative to the case of a woman patient at the county hospital who, he said, during the past two years that she had been in the institution, has been receiving a pension of $25 a month. The chairman said he felt that this money should be turned into the county. The other members of the board took the same view of the matter, and on motion of MacBain, seconded by Francis, it was ordered that in all cases where any patients in the county hospital have an income the said income must be turned into the county treasury.

Chairman Thompson salled attention to another case of a similar nature and this was referred to the Social Service Commission for further investigation.

Will H. Toepke, architect for the new county hospital, addressed a communication to the board in which he stated that the Cheredon Construction Co., of Salt Lake City, whom he had sent a set of plans and specifications for the hospital, had kept the same for about three weeks and then notified him that they didn't desire to figure on the work.

A petition signed by E. F. Barbour and seven other residents of Oak street, North Palo Alto, was received by the board complaining about the condition of that thoroughfare, and asking the board to take steps to repair it. The matter was referred to Supervisor MacBain, who stated that the road in question did not belong to the county.

Supervisor MacBain informed the board that A. E. Luger, fire warden at La Honda, had moved away from that place and that the county was without a warden. On his motion, seconded by Francis, Gus Zanoni of La Honda was appointed fire warden for the county at a salary of $4 a day the appointment to take eect at once and to be for full time.

A communication was received from the Peninsula Rapid Transit Company, replying to the complaint filed with the board some time ago by Albert H. Getz of San Francisco against one of the bus drivers of the company for cutting in on the highway near Belmont. The transit company enclosed a letter from Getz to the effect that he had interviewed the said driver and the latter had satisfactorily explained the cuttting in proposition and showed that he was not to blame for the occurance

On motion of Hickey, seconded by MacBain, Mrs. Nash, the clerk of the board was directed to reply to the communication and state that a representative of this county attended a conference of the Automobile Association in San Francisco a few months ag that was in reference to the truck situation and that the was practically insulted, further that the supervisors of the state were denied the right to go into the discussion of the conference.

J. F. Barrett of Barrett & Hilp, one of the contracting firms whose bids had been retained by the board for consideration, addressed the supervisors and asked that he be allowed to substitute a bidders' bond for the certified check accompanying his bid, he explaining that there would be considerable loss in interest on the amount of the certified check until the 6th of June.

Architect Toepke said he had taken the matter up with District Attorney Swart and the latter was agreeable to the substitution.

On motion of Hickey, seconded by MacBain, all the contractors whose bids were retained by the board, were given permission to substitute the bidders' bond for their certified check, provided the plan is approved by the district attorney.

At the request of Chairman Thompson, and on motion of MacBain, seconded by Francis, thes upervisor of the Fifth township, was given the assistance of the county engineer in oiling the San Gregorio creek road from the town of San Gregorio to the Third township line.

ADVERTISING MAN WINS $5000 VERDICT AGAINST RAPID TRANSIT COMPANY

A jury in the court of Superior Judge George H. Buck Tuesday brought in a verdict awarding the plaintiff $5000 in the case of Irving M. Ashcroft vs. Peninsular Rapid Transit Company.

Ashcraft, who is an advertising man, formerly had a contract with the bus company by which he was to place advertising cards in the buses of the company. Teh jury listened to the evidence in the case yesterday afternoon and after 35 minutes deliberation awarded him $5000. Ashcraft was represented by Peck, Bunker & Cole of Oakland, and J. E. McCurdy represeated the case for the defendant company.

James Baradat, well-known proprietor of the "Oasis," formerly the Roche place at Belmont, met with a serious accident on the Woodside road near Five Points Thursday when the automobile he was in skidded and turned over. P. Gall was at the wheel and James Baradat was seated in the rear of the auto with Maurice Sheehan. They left Belmont and drove down the highway, and turning up the Woodside road at Five Points proceeded only a short distance when the auto suddenly skidded off the road into a ditch at the roadside and turned over. CIVIL SERVICE AND THE CONFIDENTIAL RELATIONSHIP

To most people who are not familiar with the workings of the governmental machinery at Washington very strict adherence to the policy of making appointments in the government service in accordance with classified Civil Service tests seems absoutely sound. That the merit system in general produces the best results probably on one will question, and yet those who have had experience in high positions in the government service can see many important exceptions to the rule.

These exceptions have been recognized in the Civil Service law which permits heads of departments to make appointments of their confidential secretaries irrespective of Civil Service tests. These positions require not so much ability as shown by a comparative examination as special qualification to speak and act as the confidential representative of the head of the department. The element of personal understanding between the chief and his secretary and the confidence which the chief knows he can repose in his secretary, constitute the determining factors in making the seection. No competitive examination could, of course, be determinative in a matter of this kind.

But experience has shown that there are numerous other employes in the government service who, although doing purely technical or clerical work, occupy a confidential relationship. It has not been uncommon in political campaigns in the past to have copies of official correspondence of the party in power turn up in the campaign headquarters of the opposing party organization. The manner in which this correspondence get out of its proper files and into the hands of a political campaign manager is not different from the manner in which the correspondence of a private corporation sometime gets into the hands of its rivals. A stenographer may have made an extra carbon copy of the correspondence; a file clerk may have taken advantage of his opportunity and extracted copies from the files; a janitor while working in the middle of the night may have secured the desired information. In some one of these ways records are obtained and made available where not intended.

From one view point it is undoubtedly true that a public official has no right to have official correspondence which he is unwilling to have become public knowledge. Presumably, official correspondence is conducted in the name of and in the interest of all the people, and, therefore, no public official should complain if his correspondence becomes public. There are many instances, however, where injustice may be done and unfair advantage taken by the premature disclosure of official transactions to a limited number of persons. It will be remembered that a confidential employe of the United States Supreme Court is now under indictment for disclosing the probable effect of a forthcoming Supreme Court decision, with the result that he and his accomplices made a considerable sum of money by speculating in the stock market. Similar betrayal of trust in the executive branch of the government can often be made the means of private gain.

These considerations illustrate numerous instances in which the confidential relationship is often of far more importance than the mere matter of relative ability as shown by a competitive Civil Service examination. Under present regulations practically every head of a department is required to let his correspondence go through the hands of numerous persons concerning whose integrity he has no knowledge whatever.

SCONCE HOLDS WELL HIS LIGHT

Harvey J. Sconce, speaking to the U. S. Chamber of Commerce at its Ninth Annual Convention at Atlanta City, on "Agriculture and Tariff," said:

"While it is true that this country has become a creditor nation during the past few years, yet this fact does not lessen our responsibility to our people, and our tariff should be so framed as to first consider their needs. An industry as important to the nation's welfare as that of agriculture must have adequate protection in order to give the opportunity for the greatest development which will result in better living conditions for all the people of the nation."

Mr. Sconce holds well his light so all who run may read. An idea is being fostered by some of our friends who are more interested in the import game than in domestic production, that because we are a creditor nation we should let down the tariff bars and permit our creditors to pay us eleven or twelve billions of dollars in goods, wares, and merchandise, in order to cancel their bills to us. These importers are perfectly willing that American agriculture and industry should lay off for a while until this is done—that the fields should lie fallow and the wheels stop revolving in order that American consumers may turn to foreign goods. They overlook the fact that if we do not keep industry going we will soon have no wherewithal to purchase anything they may import, and industry can not be kept going if we are to permit our foreign competitors to have the American market. Neither can we sell abroad if we do not keep industry running at such capacity as will reduce the unit cost of production.

We must and will have a tariff which will not prohibit all importation, but will so restrict it as to give American agriculture and industry a predominating place in its own market.

WOMEN'S WORK

In the weekly bulletin of the Harriman National Bank, of New York, we find the assertion that "It is not so much the farmer, the railroad rates and the wholesaler as the retail merchant that is checking the return of prosperity. He should be brought to book and the quicker the better for the general welfare." This is in line with statements made by other authorities, both government and private. Attorney General Daugherty suggests that if the women of the country, who do most of the retail buying, would raise a loud protest, it would be more effective than anything ese. The Harriman Bank's suggestion is that municipal bureau require retailers to report to a municipality the highest price they charged during the week for their various commodities. This, the bank thinks, would furnish a controlling influence through the fear of public opinion. Another suggestion is that every purchaser take pains to ascertain where he can buy to the best advantage and buy there, even if at some inconvenience to himself. All evidence tends to support the assertion that the retailers have not deflated prices in proportion to the decrease in prices paid to the producer or to the wholesaler.

It really is true that a good many men are boss of their house, but you ought to see the house.

You often hear of families being separated. In almost every instance disreputable outsiders are the cause. If the divorce courts would look up the third party when it comes to alimony and insist on this party paying the prescribed amount—well divorce courts would go begging for a job.

There are two sides to every question and a reason for everything, don't form an opinion until you hear the whole evidence—you may change you mind.

MENLO PARK NEWS OF ALL SORTS

The campaign conducted by the people of Palo Alto to secure $250,000 for necessary improvements at the base hospital here, is sure to be successful. A message was received from Washington stating that a meeting would be held today to take up the matter. According to Congressman A. M. Free, "a fight will be necessary to secure the appropriation." The full text of his telegram indicates that this district's Congressman intends to do his part in the fight. The telegram leaving here on Saturday were dispatched to Congressman A. M. Free, Senator Samuel M. Shortridge and Senator Johnson. The messages to the Congressman and Senators called attention to the dangerous situation at the hospital here created by the present makeshift heating arrangement, and urged action to obtain an appropriation of $250,000 for making repairs and installing equipment which would render the institution safe and increase its efficiency. It is known that Congress has $18,600,000 at its disposal for hospital building purposes. The first reply to the Palo Alto message came Tuesday morning from Senator Shortridge, who wired:

Telegram received. Took matter up immediately. Now awaiting report. Will advise.

Soon after the receipt of Senator Shortridge's reply came the following from Representative Free:

Took up matter of appropriation for government hospital at Menlo Par with General Sawyer, Colonel Clifford and Surgeon General Cumming. Whole matter is now referred to a special board consisting of Dr. Chas. G. White of Pittsburg, Dr. Frank Billings, president of the American Medical Association of Chicago, Dr. J. G. Bowman of University of Pittsburg, and Dr. Geo. Kirby. Have appointment with board for Thursday morning to consider Menlo Park project. Fight will be necessary to secure appropriation. A telegram was received late yesterday afternoon from Senator Samuel M. Shortridge stating that the Congressional distribution of the recent $18,600,000 appropriation for hospital construction will be announced within a few days and that he is endeavoring to secure a goodly share for the Menlo Park institution.

Residents of Menlo Park will greet with cheer the word that the Bear Gulch Water Company, which supplies aqua in this community, was on Monday authorized by the Railroad Commission to acquire from the Spring Valley Water Company a water system installed by the latter company to serve a tract known as "Portola Woods," near Woodside, San Mateo County. According to evidence taken at the hearing the Bear Gulch Company plans the expenditure of a considerable sum in order to improve its service.

Martin Buckbee, a California pioneer, and father of Mrs. Harry Weeden, celebrated the 83rd anniversary of his birth at the home of his daughter on El Camino Real Sunday last. Mr. Buckbee has resided with his daughter here for a number of years. Many from Oakland and other places about the bay region attended the celebration.

Mrs. Atherton Macondray and Miss Ynez Macondray plan to leave this week for Monterey. They have been passing a few weeks at the Herman Phleger apartment in San Francisco during the absence in Honolulu of Mr. and Mrs. Phleger (Mary Elena Macondray). The Phlegers have now returned from their wedding trip and are at home in San Francisco. Mrs. Mcaondray and her daughter will come down to Menlo Park this evening and will go from there to Monterey for a few weeks. They are to pass the summer in Palo Alto.

Frances Logan, the four-year-old daughter of Mr. and Mrs. James A. Logan, celebrated the anniversary of her brith at the home of her grandmother, Mrs. James Logan, on Sunday afternoon. Fourteen guests were present to help celebrate. A dinner was given in honor of the little tot who in her childish way entertained her guests in a becoming manner.

Patrick J. Sheehy, father of Rev. William J. Sheehy, professor at St. Patrick's seminary, passed away in San Francisco last week. He was an old and respected resident of the city for many years.

Mr. R. F. Sprague and family have arrived from their sugar plantation in Louisiana, to occupy their palatial country home at Menlo Heights, by June 1st.

Fred Nessler of the Litte Green Door during the week has beautified his ice cream parlors with the very latest fixtures of counters, chairs, soda fountains and show cases, sparing no expense with the construction, the public being considered for comfort and convenience, particular care being taken for cleanliness, neatness and attraction. The various departments, such as sporting goods, notions, all magazines, gents haberdashery, cigars and tobacco, do represent a full line, precluding shoppers from going elsewhere for their immediate wants.

The Knights of Columbus carnival opened at San Mateo last evening and will continue until this evening. The fancy booth is in charge of the Y. L. I. of San Mateo and is presided over by Miss Loretta Harrington of this place. A series of card parties took place here during the week to raise funds to provide articles for it. The first one was held at the residence of Mrs. T. Harrington on Monday night. Ten tables were occupied by the players and some good scores were made. The contest tomorrow will take place between the local team and the Mountain View nine on the same diamond. The game promises to be an exciting one as the Menlo nine will make an effort to win back its lost laurels, having lost a game to the Mounatin View team two weeks ago.

A nine from St. Joseph's parochial school defeated the grammar school team on the latter's diamond on Thursday afternoon by a score of 5 to 8. The feature of the game was the playing of Edward O'Keefe on hird base.

Poor old Broom was a good old soul,
But we fear the discard's now his goal.

The broom bears the same relation to a vacuum cleaner that a tallow candle does to an incandescent or a horse car does to an electric car. The broom belongs in the days that have gone—the old days when from sun to sun a woman's work was never done. The vacuum cleaner surely has won the V. C.

Friends, no matter how reliable, are usually too busy to undertake the duties of executor of a Will. Relatives may shrink from the responsibility involved in the management of an estate.

Yet every Will must be administered. By whom, then? Preferably by an institution which makes the administration of estates its business.

The Bank of Italy's reputation for reliability is at stake every time it undertakes an executorship. Its management of all estates, therefore, must be businesslike, and at the same time, satisfactory to the persons concerned.
